Welcome to our catalog of Construction Safety Courses! Here, you'll find everything you need to keep your teams safe and compliant.

We offer the broadest offering of safety courses in the world, so if there's something you need that isn't listed, please ask us: **There's a very high probability that we offer whatever safety or skills training you need.**

OSHA 10 & 30

The OSHA 10 and 30 programs provide essential safety training for construction teams, focusing on hazard recognition, accident prevention, and compliance with OSHA standards. The 10-hour course is ideal for workers, while the 30-hour program is suited for supervisors. Completion of a 10- or 30-hour course earns an official DOL card.
